

Twitter is responsible for worldwide violations of ethical and moral principles, environmental and international laws, Children's and Human Rights. Free speech, fundamental rights and further laws were threatened and violated, too. Elon Musk and Co. is responsible to fix so much as possible and must take responsibility. It must have finally consequences or it will have a bad end for Twitter in future – no amount of money will change that history or reality! Many humans were harmed, got sick, were threatened and even died. A lot of experts, doctors, physicians and scientists confirm and can proof these opinions.

Violation of ethical and moral principles Children's and Human Rights by Twitter. Discrimination, Freedom Rights, oppression, hidden methods of censorship and shadow banning practices:

There are countless evidences for violation of ethical and moral principles, Children's and Human Rights by Twitter. Discrimination, violation of Human and Freedom Rights, corruption and oppression, hidden methods of censorship and shadow banning practices,.. the link list just the tip of the iceberg! Because of the links you can use **VirusTotal** and analyze suspicious files, domains, IPs and URLs to detect malware and other breaches, automatically share them with the security community. For professional translation you can use **DeepL**.

Send us feedback and interesting links if you know.

Because of all these problems on and with Twitter, oppressions, attacks on our accounts, projects and works we want to distance from Twitter until they really changed most of the problems and finally care or really respect mentioned principles, Childrens Rights, Human Rights and real freedom of speech. These „social networks“ or companies should understand that they represent not nearly a few percent of the whole internet and nature don't need them to exist! It is a shame that Twitter blocked, suspended and has done shadowbans or shadowbanning for years. We have analysed it with several experts and countless researches (intern and extern), with AI, special tools and monitoring programs - they all can proof and show evidences for Twitters shadow banning practice of critics, misuse of accounts reporting, organizations or people they or their partners don't like. One very easy method is to check video views on big accounts with much followers and traffic. How can it be that these videos get no or just a couple views after tweeting?? It is very alarming that Twitter makes no exception for environmental, Childrens, Womens and Human Rights... a big shame for a 'social network' or a 'social platform'. The blocking of Greening Deserts projects and suspension of the project accounts @ChangeGamesCom and @GreeningDeserts is an attack on human rights and attempts to damage the good image or reputation of the projects and works. Read more on [GD](#) and [TTI](#). More information will come on several networks if..
